Soft Skill Development Programme on “ How to crack an interview”

REPORT

INTRODUCTION : Soft skill Development Programme was conducted on 16.11.2021 in the Title “How to crack an interview”. The resource person for the event was Mrs. K . Nishanthi, HR manager of Epaxes Industrial Automation. 60 students were participated in the event.

EVENT DESCRIPTION :

CONTENT

- ❖ An interview, in a very broad sense, is a conversation between two or more people where the interviewer attempts to elicit information from the interviewee.
- ❖ Employers use interviewing as a method of conducting research and understanding the experiences of the candidates, so that they can be recruited according to suitable profile and job responsibilities.
- ❖ Market Yourself with sincerity and confidence , so that the interviewer knows your strengths and areas of expertise as clearly as possible.
- ❖ Be prepared to answer some intensive behavioral questions. These questions will test a candidate's ability of handling responsibility and resources.
- ❖ Rather than giving generic answers, companies prefer candidates who can give precise details rather than vague estimates.
