<b>CRITERION I – CURRICULAR ASPECTS</b>
<b>1.1 – Curriculum Planning and Implementation</b>

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Semester plan: Before the beginning of every semester, semester plan is prepared by various departments and brought to student's notice through class committee meetings. The semester plan contains details regarding time table, schedule for internal assessment tests and assignments, skill matrix of the members of faculty, subjects allotted to the individual teachers according to their specialization, and plan of activities proposed to be organized by the department during the semester. The semester plan would make the students to be aware over the proposed activities of the semester. Course plan: The concerned faculty for each subject prepares a detailed course plan giving the units of syllabus, proposed dates of completion of the units. It also provides the information about the textbooks and reference books to be followed. Each individual teacher also maintains a log book in which the topics discussed in the class each day are recorded which will give an idea about the completion of the unit according to lesson plan. If there is any deviation, the reasons for the same and remedial measures are recorded. The management provides support by providing the facilities required by the faculty members for effectively delivering the syllabus contents and improving teaching methods. The Institution arranges various programmes such as research forum meetings to ensure the research activities dynamic. In this perspective, the Institution allows faculty members to attend seminar, workshops, Conference programmes to other Institutions. Institution offers Induction programme to the junior staff members too. A committee consisting of Principal, Heads of Departments and Dean discuss and decide about the Faculty Development Programme (FDP) according to the needs of the members of the teaching community. Subject experts and industrial experts are invited to impart knowledge of the faculty in the current developments to meet the challenges of the technological growth. Class committee meetings are conducted periodically. Effective delivery of curriculum is achieved by making use of effective teaching practices by adopting various methods such as using Black board, Power point presentation, Digital library, NPTEL, EDUSAT facilities, and the websites of certain renowned foreign universities, which have been proved in making the teaching learning programme effective. The performance of each faculty is reviewed by the feedback collection from students from where the weakness of the teacher is identified, and the teacher is advised to improve his/her teaching skills.
